

APPEAL TO CADETS AND PARENTS

Dear Parents and Cadets,

1. As on date, India as a country is undergoing a very rough patch. In this hour of crisis and difficult time, dreaded COVID-19 with many variants is procreating an environment of apprehension and uncertainties mixed with fright and anxiety amongst citizens of India. Getting tensed and worried in this difficult condition leads to stress in the prevailing circumstances of lockdown and social distancing. These may, however, be a precarious situation but you need to take care of your health and daily routine and don't get overwhelmed. Govt machinery is working day in and day out to eradicate this deadly virus and I am sanguine that they would achieve success at the earliest.

2. I, sincerely, believe that you all are following the guidelines and instructions being percolated by the Govt during lockdown period and adhering to the norms of social distancing. There are national and regional policies/procedures in vogue at this time of crisis which must be strictly adhered to without any compromise. Please follow guidelines being issued by WHO, Govt of India, Ministry of Health and State Local Administration.

3. We are aware that prevention is better than cure. Every situation has two sides. On one side, we find desperation, distress, fear of unknown, uncertainties all looming at large and on the flip side, we find hope, possibilities, opportunities and strength to overcome any wrong that exists. In the prevailing situation we have to analyse the correct perspective and introspect and focus on our strengths, opportunities and possibilities available to us and keep our emotional, physical and mental health intact.

4. We have ample amount of free time and our endeavour should be to utilize this precious time optimally and strengthen our weak areas. One can avail opportunities to interact/read with renowned personalities on the portals of guest lectures and webinars organized by various establishments. One can also pursue/inculcate hobbies such as reading book, pursuing music, sketching etc which would be very beneficial when you prepare for SSB interview. In today's world, each and everything is available on internet just browse and explore.

5. In view of current situation in country, our school and staff is ready to conduct online classes. The school will only be opened in a systematic manner on receipt of orders from competent authority but online classes will continue and I assure you that school will leave no stone unturned to impart quality education to the cadets and syllabus would be completed in time. To handle this, school has explored various online platforms for effective conduct of classes. Now we have decided one online platform where teachers can take online interactive classes incorporating simultaneously all the features like video, audio, white board etc. Various training sessions have been conducted to train the trainers. You all are also requested to get in touch with respective House Master/Class teachers to know more details and schedule of "**online classes**". School will keep parents updated through SMS/Website. You should motivate your ward to read NCERT books through <http://ncert.nic.in/ebooks.html> . More online contents will be shared with you soon, therefore you are requested to keep visiting school website for further details.

6. It is very pertinent to apprise you that the grants which were supposed to come from Govt of India and Govt of Rajasthan have not been received because of the obvious reasons known to us and school is facing severe crunch in terms of finances. School has to strive hard to meet both ends. Moreover, to meet the expenses towards salaries to staff members, electricity charges, water charges, maintenance activities of school premises, expenses towards providing online classes. In view of the above parents are requested to deposit **tuition fee** of their wards to the school at the earliest to facilitate the obviating of this hurdle. I am quite certain that parents would understand the hardship being faced by the school.

7. Certain suggestions to use this time in fruitful manner :-

- (a) Follow a routine and use this period as an opportunity to enhance your capabilities.
- (b) Exercise regularly.
- (c) Improve communication skill.
- (d) Read books pertaining to Military History.
- (e) Advance preparation of syllabus of Social Science for General Ability Test.
- (f) Inculcate habit of self study.
- (g) Take help of varied website available to learn concept of Maths, Physics and Chemistry.
- (h) Pursue any hobby.
- (j) Take care of hygiene and sanitation.
- (k) Remain truthful.
- (l) Don't waste time in infructuous activities.
- (m) Analyze your weakness and strong points.
- (n) Set an aim and work out steps to achieve it.
- (o) Strengthen your bond with your parents.
- (p) Respect your elders.
- (q) Acquaint yourself to learn from digital modes and online platforms.

Stay safe, stay healthy and most important stay indoors,
looking forward for healthy and day to day interaction in school premises soon.

Long Live Chittorian Fraternity

Jai Hind !
